

About Nonprofit Navigator

Nonprofit Navigator is a step-by-step program built to help small nonprofits actually raise the money they need — without feeling overwhelmed, stuck, or lost.

It's based on real-world experience, not theory.

I (Akiva) designed the course after years of coaching dozens of founders, fundraisers, and nonprofit teams who were doing great work... but struggling to bring in consistent funding.

Here's what you get with Nonprofit Navigator:

A Complete Fundraising System:

Learn exactly how to find donors, approach them, ask for support, and build lasting relationships. No guesswork — just a clear roadmap.

A Proven Step-by-Step Curriculum:

9 modules (plus an Orientation) that take you from “where do I even start?” to “I just raised \$50K–\$100K.”

Each module is bite-sized and action-driven so you can implement — not just learn.

Coaching and Support:

Depending on your plan, you can join weekly live group coaching sessions, get private 1:1 coaching, and get feedback in real-time when you need it. You're never doing this alone.

AI Tools to Find Donors:

Our proprietary AI tech helps you search thousands of potential donor prospects — so you don't waste time cold-calling random people.

A Community of Fundraisers:

You'll connect with other nonprofit leaders who are on the same journey. Share wins, get advice, and stay motivated.

A Guarantee:

We guarantee you'll raise at least \$4,000 in new money — or we'll keep coaching you for free until you do.

Who It's For:

Small and mid-sized nonprofits

Founders and executive directors

Volunteer-led organizations ready to get serious about fundraising

Anyone who cares deeply about their mission but needs a proven system to bring in money consistently

Results You Can Expect:

Raise \$50,000–\$100,000 faster than you thought possible

Build a real donor base that supports you year after year

Stop feeling stuck, burnt out, or dependent on a few random donations

Fund your programs with confidence and scale your impact

Extra: If Someone Asks About Pricing or Tiers:

How much does Nonprofit Navigator cost?

We offer several tiers depending on how much coaching and support you want:

\$49/month: Access to the full self-paced video course and digital tools.

\$999 one-time: Video course + group coaching for 2 months.

\$4,000: Full system + 8 private 1:1 coaching sessions + lifetime group access + guarantee to raise at least \$4,000. (for nonprofits looking to raise \$15-25k).

\$8,000: Deeper coaching package if you're ready to scale (for nonprofits looking to raise \$50-\$100k).

We also offer occasional free live sessions where you can get a taste before committing!

If They Ask Who Created It:

Nonprofit Navigator was created by Akiva Naiman.

Akiva has helped nonprofit founders and fundraisers raise the funds they need through a combination of practical strategy, mindset shifts, and simple, effective systems. He himself has fundraised millions in the nonprofit world.

He built Nonprofit Navigator because he kept seeing the same pattern: nonprofits doing amazing work, but struggling to survive because they didn't have the right fundraising strategy. Nonprofit Navigator is the system that finally fixes that.
